keni

ANGELES CITY + PAMPANGA

Find your next hangout.

A smarter way to discover places to eat, relax, and have fun with friends.

Built around one everyday question: “Where should we go?”

7-minute startup pitch · October 2026

Discover · Compare · Decide together

PROBLEM AND OPPORTUNITY

The problem is not a lack of places. It is the guesswork.

WHAT OUR 20 INTERVIEWS SURFACED

15/20

mentioned outdated or missing information.

That is 75% of interviews.

The opportunity: up-to-date local details, and one place for a group to decide.

People already jump between maps, social media, reviews, and friends.

VALUE PROPOSITION

One local guide for the group decision.

Keni takes a group from “Where do we go?” to a place everyone agreed on.

01

Discover

Nearby spots on a map

02

Filter

By category, distance, and price

03

Compare

Hours, prices, photos, and what’s open now

04

Decide together

The tropa votes, and Keni locks the pick

From “Where do we go?” to “Let’s go there.”

Built for students, young adults, and groups of friends around Angeles City and Pampanga.

PRODUCT DEMONSTRATION

A simple flow: discover, compare, decide.

01

Discover

Explore nearby cafes, food, and fun on the map.

02

Compare

See hours, price, and whether it's open now.

03

Decide together

Start a tropa vote. Friends vote, and Keni locks the place.

Live web app **keni-real.vercel.app/get** Search places and start a tropa vote.

Try it on any phone, no download needed.

BUSINESS MODEL AND REVENUE

Free for users. Paid by venues.

Users bring the crowd. Venues pay to reach it.

FOR USERS

Free

Always

- Map, search, and filters
- Place details
- Tropa votes and chat

VENUES · BASIC

₱500

per month

- Edit hours, prices, contacts
- Cover photo and description
- See what people report

VENUES · PREMIUM

₱1,299

per month

- Everything in Basic
- Promos and events
- Deal badge on the map, top row in Explore
- Deal tag in tropa votes
- Weekly views and saves

1-month free trial for venues · Sponsored promotions: custom · Already built in Keni Studio

GO-TO-MARKET STRATEGY

Launch locally. Earn trust. Then scale.

01 · FIRST

Campus pilot

- Recruit student groups
- Observe real outing decisions
- Collect feedback on repeat use

02 · NEXT

Local venues

- Onboard cafes, restaurants, recreation
- Owners verify hours, prices, photos
- Free first month in Keni Studio

03 · AFTER PROOF

Community growth

- Campus ambassadors and referrals
- Short local guides on TikTok / Instagram
- Promote partners once data is trusted

Launch rule: start with organic campus and community channels. Test paid ads only after conversion is measurable.

Rollout for Angeles City and Pampanga, starting with students and nearby venues.

COMPETITIVE ADVANTAGE

Keni competes with the way people decide today.

The edge: one flow from searching to a group decision.

Current option	What it does well	What's still missing
Maps	Directions, place info, ratings	Details are often outdated, and it can't help a group choose.
Social media	Photos, trends, personal reviews	Useful posts are scattered; prices and hours are hard to compare.
Group chats	Easy to talk with friends	Long threads, no clear answer, and plans fall apart.
Keni	Map + details owners keep current	A tropa votes and locks a place in one flow.

Our hardest advantage to build: accurate local data and user trust.

MANAGEMENT TEAM

Five people. One local launch.

B

Bea Louise Uson

Product strategy & coordination

J

Joaquin Chaster Celis

Customer research & prototype testing

M

Mon Karlo Don Lapid

Business model & venue partnerships

R

Remus Aimiel Marasigan

Competitive insight & product positioning

K

Kyra Lois Santos

Metrics, validation & pilot operations

The pilot needs shared ownership: product quality, customer learning, venue trust, and disciplined spending.

FINANCIAL PROJECTIONS AND KEY METRICS

Model the economics before scaling spend.

LEAN PILOT

₱7,598

10 basic + 2 premium venues

BASE TARGET

₱16,495

20 basic + 5 premium venues

STRETCH

₱32,990

40 basic + 10 premium venues

ESTIMATED MONTHLY COSTS

₱7.6k–₱12.6k

Software, hosting, map services. Before paid marketing.

IF PAID ADS RUN EVERY DAY

₱45k–₱60k / month

At ₱1,500–₱2,000 a day. Only after organic growth works.

Lean about breaks even. Base pays for growth. Metrics to prove: time to choose · listing accuracy · repeat use · venue conversion

Illustrative, not a forecast. Uses ₱500 per basic venue and ₱1,299 per premium venue.

STATUS, VALIDATION AND NEXT STEPS

Strong intent. Now prove real use.

20/20

said “Yes” to using Keni.

Live web app with tropa votes, chat, and owner Studio. 20 interviews done.

NEXT 3 MOVES

01 · Get owners on board

Bring the first venues into Studio so hours and prices are current.

02 · Run a real outing

Student groups plan and go out with Keni; we watch where they struggle.

03 · Measure, then decide

Track time to choose, listing accuracy, repeat use, and paid venues.

Keni turns “Where should we go?” into a confident choice.
